PROFILE

I'm a currently software engineering student at Eastern Mediterranean University and going to graduate in the summer of 2022. I choose my profession to be a Front-end developer for time being I have not very much experience in Back-end. In 5 years my goal is to learn Back-end and database.

EMPLOYMENT HISTORY

Front-end Developer, Archis academy   Eskişehir

Sep 2020 — Present

I'm a Front-end developer at Archis academy. I'm trying my best to implement designs as pixel-perfect. Besides my work, I'm helping trainees in Archis. I share my knowledge and prepare them to get ready for our main project.

Team Lead, Archis academy   Eskişehir

Mar 2021 — May 2021

Archis was going to make a Hackathon event called Endurance. The goal was to implement our newly designed website ASAP. I was the leader of 3 people, helping them to finish their tasks by reviewing their PR's and explaining task tickets.

EDUCATION

Software engineering, Eastern Mediterranean University   Nicosia

Jun 2017 — Jun 2022

· Learning data structure and analysis of the algorithms.
· Improving analytical mindset.
· Improving communication and collaboration.
